

Single and Multi-User

The prices on our website assume that you are a SINGLE USER. This means that:

- You are manager or trainer in a small organisation, and as such, will be the only person using the materials, even if you may use them more than once or in 2 or 3 locations, or
- You are an independent trainer who is using them with a specific client.

If you are in fact buying on behalf of a larger organisation, where:

- A number of trainers or managers will be running sessions in multiple locations, or
- Materials will be placed on an LMS for people to download and use 'on demand'
- You are an independent trainer who expects to use the materials on an open course or with more than one client

we ask you to buy the **MULTI-USER** version.

A standard editable Power Hour (single user price £79) is £395 for a multi-user licence, and £275 for PDF versions.

An editable EXPERT session (single user price £149) will be charged at £575 and £450 for the PDF version.

Simply email me with the titles you want, and whether you want PDF or editable versions. I will then send you an invoice and once this has been paid, the files will be emailed to you. Standard terms are 14 days.

Please refer to the Terms and Conditions for details about how the materials may be used, especially the rules around rebranding.

Charities

If you work for a charity, please contact us for discounted rates - typically 20% off the normal multi-user prices.

Large Order?

Please contact us for prices of bundles or large orders so that we can create a bespoke offer for you.
